Objective:

I am a third-year Bachelor of Technology (B.Tech) student specializing in Computer Science Engineering at VIT Bhopal. I have earned certifications in Cloud Computing (NPTEL), The Bits and Bytes of Computer Networking, Developing Your Emotional Intelligence, Simulink Onramp, Python Essentials, Python (HackerRank), and a C++ course titled "Learn the Essentials," all of which complement my academic pursuits and enhance my technical expertise. I have developed strong proficiency in programming languages like HTML, CSS, and JavaScript, along with experience in working with various frameworks and libraries, showcasing my enthusiasm for web development and software engineering.

Beyond academics, I have a keen interest in current affairs and world politics, which keeps me informed about global developments. I enjoy playing football and badminton, activities that help me stay active and develop teamwork and strategic thinking. I strongly believe that hard work can surpass talent and constantly strive to improve myself through dedication and perseverance.
